

IRO Announcement nr 28/16/SMS/2016/2017

Participant survey (individual Participant Report)

We would like to kindly remind you, that according to the Erasmus grant agreement signed before Erasmus mobility, every student is obliged to complete an online survey (a participant report) at the end of their mobility.

A link to the survey is sent to the student's email address in the USOS system on the last day of their mobility (the last day being the mobility end date, as stated in the grant agreement or in the annex to the agreement).

As of academic year 2016/17 the European Commission introduced a new, **additional survey (participant report)**. Each student who chooses the answer: "*the recognition process is still on-going*" in the question about whether the recognition process is finalised, will be sent a link to an additional survey, related to the recognition process only. The link will be sent one month after the mobility end date.

Submitting both surveys is obligatory and is necessary (among other requirements) in order to receive the remaining part of the grant.

We kindly ask you to read all the questions with attention and provide answers to the best of your knowledge. Unquestionably, studying abroad should always result in improving your language skills and gaining sector-specific skills, relevant for your professional development.

Warsaw 21.12. 2016

Sylwia Salamon
Erasmus Institutional Coordinator
