Guidance on how to fill in the document

Before the Mobility

1. The table A *STUDY PROGRAMME AT THE RECEIVING INSTITUTION* is filled out by the student according to the course selection in IRK after the online application is accepted. If there are any comments/requests from the UW Mobility coordinator regarding the course selection, they should be included.
2. Information about the courses is available in the [UW Course Catalogue](#).
3. Table B *RECOGNITION AT THE SENDING INSTITUTION* presents how the courses taken at the University of Warsaw (table A) will count toward the student's degree at their home university.
4. The responsible person at the University of Warsaw is the Mobility Coordinator of the student's receiving unit (details provided after the online application is accepted).
5. This part has to be signed by all three parties before the mobility at the University of Warsaw starts.

During the Mobility

1. Table C *CHANGES TO ORIGINAL PROPOSED STUDY PROGRAMME AT THE RECEIVING INSTITUTION* is filled out only if the student attends different courses to the ones in table A.
2. Any change to the components in the table A should be recorded in the table C:
 - a. Courses that were initially included in the study plan, but the student does not attend during the mobility, should be inserted in Table C with an "x" in the column *deleted*.
 - b. Courses that were not initially included in the study plan, but that the student attends during the mobility, should be inserted in table C with an "x" in the column *added*.
3. This part has to be signed by all three parties after the student successfully registers for all the courses, preferably within the first month of the mobility.
